

PRODUCT REQUIREMENTS DOCUMENT

Project: Tall Chair Advisor Growth System

1. Product Overview

Tall Chair Advisor is an affiliate content platform targeting ergonomic solutions for tall users.

Primary monetization:

- affiliate commissions from ergonomic chairs
- standing desks
- workstation accessories

Core strategy:

Build topical authority around tall workstation ergonomics.

The site will dominate search traffic for queries related to:

chairs for tall people
desk ergonomics for tall users
workstation setups for tall professionals

High-ticket products make the niche ideal for affiliate revenue.

Example products include:

- Steelcase Gesture
- Herman Miller Aeron
- Haworth Fern
- Secretlab Titan XL

Typical product prices:

\$600–\$2000

This creates strong commission potential.

2. Primary Objective

Grow TallChairAdvisor into a topical authority site for tall ergonomics capable of generating:

50k–150k organic monthly visitors
\$5k–\$20k monthly affiliate revenue

3. Target Audience

Primary Users

Tall individuals:

6'1 – 6'7

Common professions:

- software engineers
 - remote workers
 - designers
 - gamers
 - office workers
-

Pain Points

Tall users experience:

- seat depth issues
- insufficient chair height
- poor lumbar alignment
- incorrect desk height
- wrist strain

They search Google for solutions.

Example queries:

best office chair for tall people
steelcase gesture seat height
desk height for 6'4
ergonomic chair for long legs

4. SEO Strategy Overview

Traffic comes from three content layers.

Layer 1 — Money Pages (High Conversion)

These target buyer intent keywords.

Example pages:

Best Office Chairs for Tall People
Best Chair for 6'4
Best Desk Chair for Tall People
Best Ergonomic Chairs for Tall People

These pages generate the majority of affiliate revenue.

Layer 2 — Product Pages

Dedicated pages for specific products.

Example:

Steelcase Gesture for Tall People
Herman Miller Aeron for Tall People
Haworth Fern Review
Secretlab Titan XL Review

These capture product-specific search traffic.

Layer 3 — Micro Intent Pages

These answer specific questions.

Examples:

Steelcase Gesture Seat Height Range
Steelcase Gesture Seat Depth Adjustment
Steelcase Gesture Weight Limit
Steelcase Gesture vs Aeron
Steelcase Gesture for 6'4

These pages bring long-tail traffic.

Individually small but collectively powerful.

5. Content Cluster Strategy

Each major product becomes a content cluster.

Example cluster:

Steelcase Gesture

Steelcase Gesture Review
Steelcase Gesture Seat Height
Steelcase Gesture Seat Depth
Steelcase Gesture Weight Limit
Steelcase Gesture for Tall People
Steelcase Gesture vs Aeron
Steelcase Gesture vs Leap

Cluster size target:

10–20 pages per product

6. Pillar Content

The most important page:

Best Office Chairs for Tall People

This page targets the largest keyword cluster in the niche.

Supporting pages link back to it.

7. Secondary Niche Expansion

Tall ergonomics extends beyond chairs.

Second niche:

Desk height and workstation ergonomics

Example content:

Desk Height for Tall People
Desk Height for 6'4
Standing Desk Height Chart
Desk Height Calculator

Monitor Height for Tall Users

This doubles traffic opportunity.

Example desk brands include:

- Uplift Desk
 - Fully
-

8. Internal Linking System

Pages must be tightly linked.

Example flow:

Steelcase Gesture Seat Height

↓

Steelcase Gesture Review

↓

Best Chairs for Tall People

This builds topical authority.

9. Content Volume Target

Target site size:

5 pillar pages

20 product reviews

150 micro pages

30 comparison pages

Total:

~200 pages

This is the size most successful affiliate sites reach.

10. Content Production System

Use AI to scale content creation.

Process:

1. Export queries from
Google Search Console
 2. Expand queries into article ideas.
 3. Generate outlines.
 4. Produce articles.
-

Example workflow:

Search Console queries
↓
AI keyword expansion
↓
article outlines
↓
content generation
↓
publish

11. Query Expansion Strategy

Queries from Search Console become seed keywords.

Example:

steelcase gesture seat height

Expanded into:

Steelcase Gesture Seat Height Range
Steelcase Gesture for 6'4
Steelcase Gesture Tall User Guide
Steelcase Gesture Seat Height vs Aeron

Each becomes a new page.

12. Affiliate Conversion Strategy

Focus on high purchase intent visitors.

Content types with highest conversions:

product comparisons
product configurations
"best for tall people"

Example pages:

Steelcase Gesture vs Aeron for Tall People
Best Steelcase Gesture Configuration

13. Product Pricing Strategy

Many ergonomic chairs have configurable upgrades.

Example:

Base price:

\$1100

Configured price:

\$1400+

Higher order value → higher commissions.

Content should guide users toward optimal configurations.

14. Technical SEO Recommendations

Ensure:

- fast page load
- clean URL structure
- proper schema
- internal linking
- mobile optimization

Example URL structure:

/tall-chairs/
/chairs/steelcase-gesture/
/chairs/steelcase-gesture-seat-height/

15. Automation Opportunities

Your existing automation stack can help.

Possible systems:

Search Console API → new queries
SERP API → competitor analysis
Firecrawl → product scraping
AI → content generation

Automation pipeline:

query discovery
↓
keyword expansion
↓
article creation
↓
auto publish

16. Growth Timeline
